EDUCATION

SRM University AP — **Andhra Pradesh, India**
B.Tech. in AI & Machine Learning | ***CGPA: 9.4 / 10.0*** — *Jun 2024 – Jun 2028*

VidyaGyan Leadership Academy — **Uttar Pradesh, India**
Intermediate (Class XII) – ***87.50%*** | *High School (Class X)* – ***95.4%*** — *Jun 2022 – Apr 2024*

EXPERIENCE

Research Intern – SRM University AP — **Jun 2026 – Jul 2026**

- Built **promptFlow-AI**, an academic publication tracking system (**FastAPI**, **Scikit-learn**, **React 19**), integrating a TF-IDF + Naive Bayes NLP service achieving **98.00% accuracy**, **100% recall**, and **0.999ms** inference latency.
- Engineered backend metadata-extraction and reporting pipelines processing **50 real faculty publication emails** with **100% DOI/Journal resolution accuracy** at **937 docs/sec** throughput, validating correctness and edge cases.
- Integrated multi-tenant notification tracking with **OpenPyXL/ReportLab** export services, reaching **1,267 records/sec** and communicating implementation results to stakeholders.

Summer Intern – Dabur India Limited HQ — **Jun 2023 – Jul 2023**
Ghaziabad, Uttar Pradesh

- Completed a **14-day internship** at Dabur's headquarters, gaining exposure to FMCG corporate operations and cross-functional processes.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript (ES6+), TypeScript, HTML/CSS, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Flask, Tailwind CSS, Socket.IO, Pandas, NumPy, Scikit-Learn

Databases: PostgreSQL, MySQL, MongoDB, Redis

AI/ML: Large Language Models (LLMs), RAG, Prompt Engineering, NLP, Computer Vision, Multi-Agent Systems, Ollama

Cloud & DevOps: AWS, Microsoft Azure (OpenAI), Docker, Git, GitHub Actions, CI/CD, REST APIs, Postman

Core CS: Data Structures & Algorithms, System Design, OOP, DBMS, Software Engineering

PROJECTS

BharatBazzar — Full-Stack E-Commerce Platform

- Developed a complete e-commerce platform with a normalized **MySQL** database featuring **triggers** and **stored procedures**.
- Built a **Node.js/Express** REST API backend with a responsive frontend design.

Developer-Learning-Tracker — MongoDB, Express.js, React, Node.js — GitHub

- Built a **MERN** full-stack app to log DSA problems, projects, and goals, with LeetCode/Codeforces stats, streak tracking, **Recharts** progress charts, and a shareable public profile page.
- Structured the project as a separate React client and Node.js/Express server, and **deployed it on Vercel**.

ProctorX — Django REST Framework, React, PostgreSQL — GitHub

- Built a full-stack online examination platform (**Django + DRF**, **React 19 + Vite**) where faculty create timed, randomized exams and students attempt them in a monitored browser; frontend deployed on **Vercel**.
- Implemented **JWT auth with refresh rotation** and default-deny **role-based access control** (student/faculty/admin), a server-authoritative exam timer with auto-submit, and deterministic question randomization.
- Engineered an **AI-assisted proctoring** pipeline logging suspicious-behavior events with a severity-weighted integrity score and a live faculty monitoring board, flagging for **human review only** (no auto-fail).
- Added auto-grading with negative marking, a manual grading queue, result publishing, **CSV/PDF export** and an audit log, backed by **93 passing backend tests**.

CERTIFICATIONS & ACHIEVEMENTS

Solved **200+ LeetCode problems** (C++), DSA/complexity focus

CodeChef Problem Solver Bronze Badge – **206 problems solved**

MongoDB Certified Associate Developer (MongoDB, Inc.) — *Apr 2026*

Young Scholar – Ashoka University, Sonipat, Haryana · 100% Scholarship — *2023*
Selected through a highly competitive process for a liberal arts intensive focused on critical thinking, research, and interdisciplinary learning.

Awarded **100% Merit Scholarship** – SRM University AP — *2024–Present*

Shiv Nadar Foundation Scholar – Awarded 7-year Merit Scholarship (Class VI–XII) — *2017–2024*
